When Paige Pierce moves into launch mode,

she spends time with her clients to understand how they live, work and play in their homes.

In this *modern
Mediterranean* beauty,

her client loved blue
and white as a color
scheme so blue became
the grounding color
throughout the home.

“I always make sure there’s a lot of color and pattern at play.”

- Paige Pierce

The center of the house

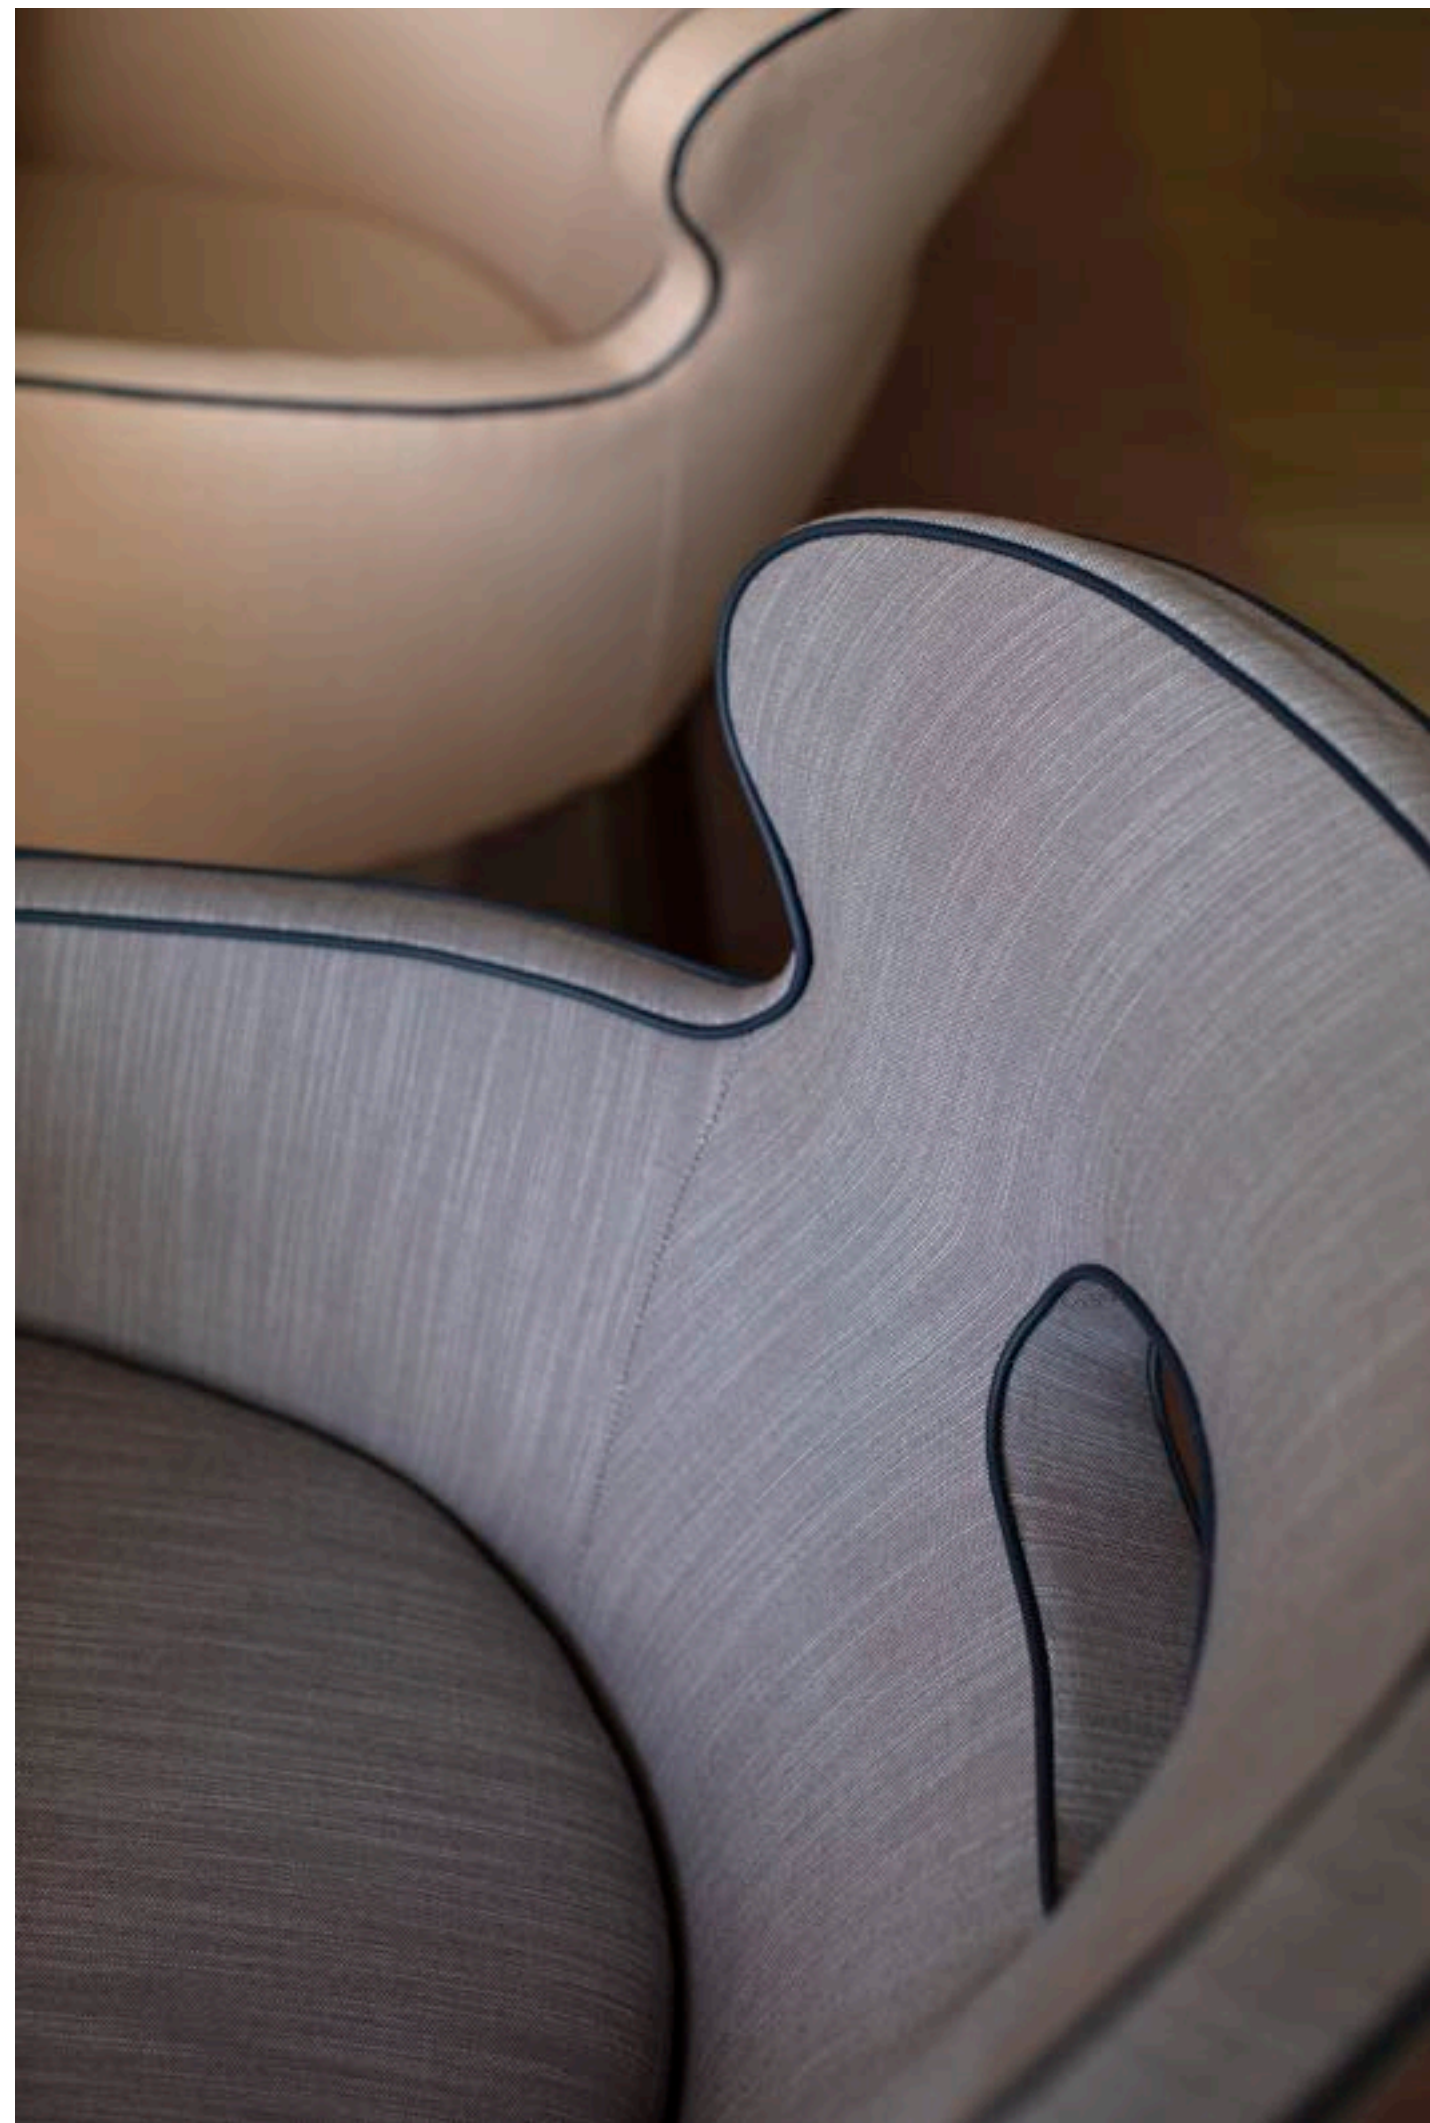

was opened up to reveal vaulted ceilings and beautiful afternoon light.

Because blue pairs well with a variety of colors,

Paige was able to introduce complementary accent hues through the project.

Slumber Party Central!

This bright blue, fort-like room is the grand kids' favorite where their imaginations can run wild.

Layering various shades
of blue and white

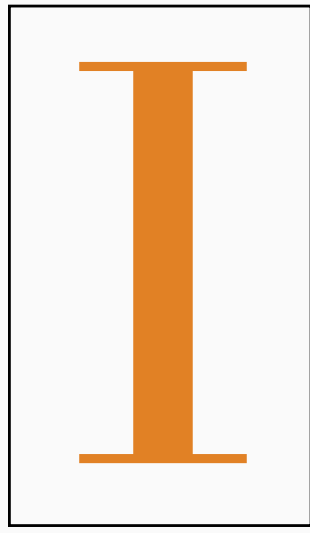

with interesting shapes and
textures creates a *stunning*
feast for the eyes!

Have you ever seen such luscious dining chairs? This jewel box of a room sits between the kitchen and formal entry and I walked through it so many times throughout the shoot, each time getting more and more excited to capture it!

hope you enjoyed this issue of Krush and were inspired by Paige Pierce.
